## PROFESSIONAL PROFILE

Junior Full Stack Developer with over 1 year of professional experience in business software development. Reduced data analysis/registration runtime from **6 hours to 5 minutes** with an image/flyer reading application. Although currently focused on **C# and Oracle**, I am expanding my skills to include **React, JavaScript, TypeScript, HTML5, CSS3, Python, PostGres.js**

### Confiança Supermercados – Bauru/SP, Brazil

IT Assistant • Jul 2025–Present

- Design, develop, and implement software solutions for desktop, web, and RESTful APIs for the automation of operational and logistical processes.
- Optimize workflows, resulting in efficiency gains and time savings for over 10 branches of the network.
- Actively collaborate throughout the entire development lifecycle (analysis, coding, testing, and deployment) of medium and high complexity projects.

Software Development Intern • Sep 2024–Jun 2025

- Assist in the development and maintenance of internal systems, using technologies for desktop, web, and APIs.
- Contribute to the automation of repetitive tasks, increasing the productivity of teams across various branches.
- Gain practical experience in software development, participating in the creation of robust projects adopted by the majority of the company's units.

### Alpack do Brasil – Bauru, Brazil

Machine Maintenance Assistant • Jan 2024–Aug 2024

- Specialization in the operation and maintenance of box and packaging sealing/wrapping/bundling machines.
- Development of logical thinking from procedure flow to future maintenance of the same.

### Cloud nine – Dublin, Ireland

Food Trade Manager • May 2022–Sep 2023

- Supervisory and management role in an ice cream parlor in Ireland, responsible for training and teamwork, service quality and perishables, cleaning, and product restocking.

### Gaia Junior – Londrina, Brazil

People Management and Sales • Jan 2019–Jul 2019

- During college, I worked in sales to attract customers and offer services in the environmental engineering area. I also performed people management tasks for the general team.

## SKILLS

- Teamwork;
- Leadership;
- Creative Thinking;
- Problem Solving;
- Programming.

## LANGUAGES

- Portuguese - Native
- English - Advanced (C1)
- Spanish - Basic

## PROJECTS

### Portfolio

Responsive personal portfolio with React and TypeScript, using animations with Framer Motion, light/dark theme support, internationalization, and modular structure with reusable components.

### Hack'n'Slash Game in Python

Development of a complete 2D game using Python and Pygame, with an evolution system, leaderboard, and multiple game states.

### Sales-Refund Project in C#

Desktop application in C# (Windows Forms) with SQLite, focused on product control, sales, refunds, and brands. Structured in layers (DTO, DAL, BLL), with a dynamic interface via embedded forms, support for data import/export, and user authentication.

# PROJECTS

---

## ● Reader-Gemini

Development of a full-stack application for intelligent document processing (PDF, JPG, PNG) with a Python backend and JavaScript/HTML/CSS frontend, integrating Gemini AI API for image and content analysis, automating data extraction and interpretation with report generation.

## ● Book Web Scraping

Development of a web scraping script for the automated extraction of book titles from specialized websites, with export of collected data to a CSV file.

## ● Among other projects

I have over 27 versioned projects on GitHub, most in an advanced stage. Through them, I constantly improve my skills in different languages and tools, exploring solutions for a variety of problems and applying architecture concepts and code best practices.

# ACADEMIC BACKGROUND

---

## Systems Analysis and Development

Uninter • 2023–Present

- *Data Modeling (Entity-Relationship, Normalization, OLAP)*
- *Data quality and integrity assurance*
- *Integration of data from multiple sources (APIs, relational and NoSQL databases)*
- *Data Wrangling with Pandas, NumPy*

## English Proficiency - Level C1

City Language School • 2022–2022

- Achieved English proficiency, living in Ireland for 1 year and 6 months.
- Besides English school, I had various work experiences, always using English.

## High School with IT Technician

Etec Rodrigues de Abreu • 2015–2018

- *Developed my passion for programming.*
- *Founder and mentor of the university's first programming club.*
